

International Dial Out Instructions

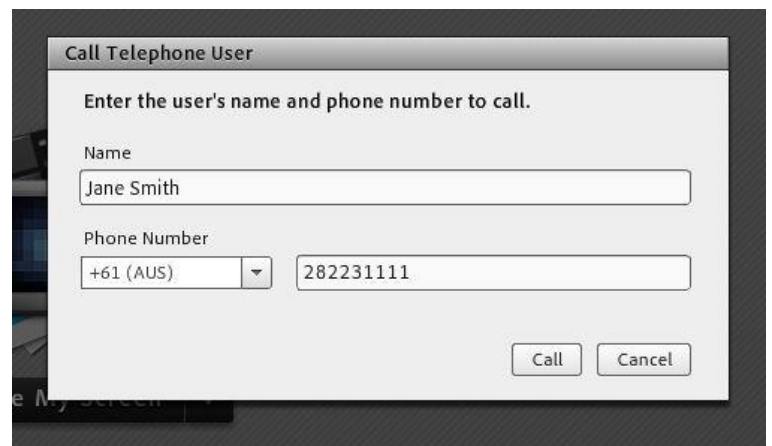

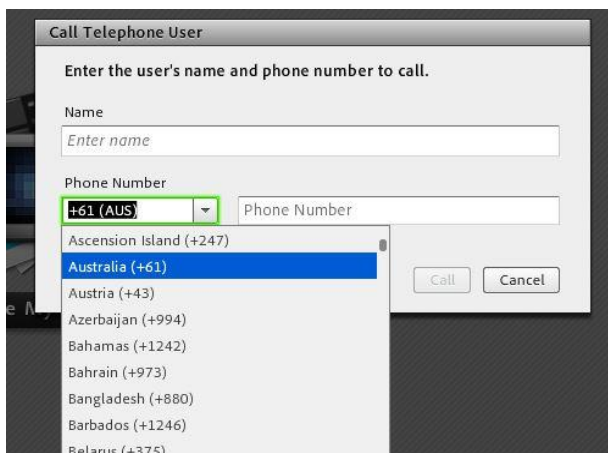

Use the information below to dial out to participants who are outside of North America.

Additional Costs for International Dialing. Contact MeetingOne Support for Details

International Dial Out using Adobe Connect:

A host can dial-out to participants outside of North America using Adobe Connect

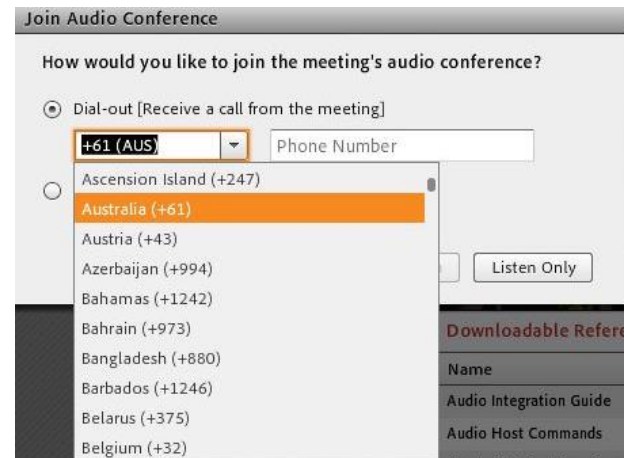

1. Sign into Adobe Connect as a Host
2. Select the “Audio” drop down menu, and select “Call A New User...”
3. From the drop down list of countries, select the participant’s country and country code
4. Enter the participant’s name and local phone number without 011 or the country code.
5. Select “Call” and the participant will receive a call from the audio bridge.
6. Upon answering, the participant will press “1” on their phone’s keypad to join the meeting audio.

Dial-Out For Attendees

An attendee can dial-out to themselves outside of North America using Adobe Connect

1. Sign into Adobe Connect as a Host, Presenter or Participant.
2. Select the “Dial-out [Receive a call from the meeting]” option
3. From the drop down list of countries, select your country and country code
4. Enter your local phone number without 011 or the country code.
5. Select “Join” and you will receive a call from the audio bridge.
6. Upon answering, press “1” on your phone’s keypad to join the meeting audio.
